Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

25

Phase of Journey	Stage 1 Access & Understand Data	Stage 2 Explore & Analyze	Stage 3 Insights & Decision Making
Actions *What does the customer do?*	• Open Tableau dashboard • Review key EV market KPIs • Select relevant market view	• Apply filters for manufacturer/ category/battery/country • Compare sales, range, ratings and battery technologies • Examine charts and trends	• Identify key trends and high-performing segments • Interpret business and technology insights • Use findings for strategy/research decisions
Touchpoint *What part of the service do they interact with?*	• Tableau dashboard home • KPI cards • Navigation/view controls	• Interactive Tableau filters • Charts and comparison views • KPI and analytical visualizations	• Summary dashboard • Insight-focused charts • Final KPI and comparison views
Customer Thought *What is the customer thinking?*	• "What is the current EV market performance?" • "Which manufacturers and categories lead?" • "Where should I focus first?"	• "Which segment performs best?" • "Which battery technology is most common?" • "How do manufacturers and countries compare?"	• "What are the most important findings?" • "Which opportunities or trends stand out?" • "What decision should I take from these insights?"
Customer Feeling *What is the customer feeling?*	• Curious • Oriented • Ready to explore	• Engaged • Analytical • Confident	• Informed • Confident • Decision-ready
Process Ownership *Who is in the lead on this?*	• Project owner / Tableau dashboard developer	• Project owner / Tableau dashboard developer	• Project owner / Tableau dashboard developer
Opportunities *How can we improve this stage?*	• Provide clear dashboard overview • Highlight important KPIs • Keep navigation simple	• Add intuitive filters • Use clear labels and comparisons • Reduce visual clutter	• Emphasize actionable insights • Provide concise summaries • Make important trends easy to identify
