Project Demo Planning

Date	25/10/2026
Team ID	Tanishka Jain
Project Name	**Electric Vehicle Market Performance & Insights**
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Data Collection and Extraction	Gathering diverse global EV market spreadsheets and establishing optimal connections in Tableau by generating high-performance **Tableau Data Extracts (.hyper)** for faster processing.	3 min	Tanishka Jain
2	Data Preparation	Building custom calculated fields, nesting Level of Detail (LOD) expressions, and configuring data relationships within Tableau's logical layer to normalize inconsistent driving ranges and customer scales.	4 min	Tanishka Jain
3	Data Visualizations	Constructing highly interactive individual worksheets—including filled maps, technical scatter plots, and packed bubble charts—to analyze battery technologies and sales performance.	5min	Tanishka Jain
4	Dashboard	Arranging worksheets into functional dashboards using dynamic container layouts, synchronized cross-sheet filters, and customized tooltips to serve individual stakeholder personas.	6min	Tanishka Jain
5	Story	Designing a guided narrative path within Tableau to walk non-technical users step-by-step through the core analytical findings, market trends, and sustainability insights.	5min	Tanishka Jain
6	Performance Testing	Utilizing Tableau's built-in **Performance Recorder** to profile dashboard rendering speeds, optimize calculation fields, and eliminate workbook lag prior to delivery.	5min	Tanishka Jain
